

Dipartimento di Fisica
Università Federico II di Napoli

A Quantum Day at the Physics dept.

Aula Caianiello
Tuesday 9 July 2013

10:00 Alberto Porzio (CNR Researcher, SPIN Institute, Naples)

“Continuous variable entangled states: from the EPR paradox to real experiments”

11:00 Enrico Santamato (University of Naples Federico II)

“Interpretation of Quantum Nonlocality by Conformal Quantum Geometrodynamics”

lunch break

14:30 Federico Laudisa (University of Milano Bicocca)

“No-go theorems in quantum mechanics: the story of an obsession”

16:00 Jean-Michel Raimond (Université Pierre et Marie Curie, Laboratoire Kastler Brossel, ENS, CNRS, UPMC)

“Exploring the quantum with atoms and cavities”
